drive or ten-minute flat walk to the bustling heart of the village.

The elevated situation of the property affords it uninterrupted views of the valley and surrounding peaks which can be enjoyed from its balconies or extensive terrace. The interior is a masterclass in craftsmanship and contemporary alpine design.

Spacious and bright, the chalet is laid out over four floors, sleeping 10 in five very well appointed en-suite bedrooms. Four of the bedrooms can be configured either as twin or double bedrooms and they each have access to a balcony.

All of the bedrooms have been furnished and styled to the highest specification, with wonderful rich fabrics and colours.

The chalet is entered on the ground floor into a main hallway which opens into the living areas. These consist of a beautiful and opulent living and dining area situated at the front of the chalet, flooded with light and warmth emanating from the fire place. A separate breakfast room can be joined to the main living area for formal dining for larger groups. The spacious and very well-equipped professional kitchen is separated from the living areas. After an exhilarating day on the slopes, guests can watch the latest movie in the chalet's dedicated cinema room or retire to the wellness area on the lower ground floor where a hammam, sauna, and relaxation area are located. Included in the rental price is a villa manager, who cares for your well being. Also included is daily breakfast and a afternoon snack. The use of the professional kitchen is restricted to professional chefs. We gladly assist you in hiring a chef for you.

The villa manager and the chef (if required) will use separate quarters in the basement of the chalet. This chalet is not for self catering, as the guests have no access to the kitchen.
