DOMIZILE REISEN

1 Master Suite:

miniature version of Kasbah Tamadot - three bedrooms - terrace - private pool

Lower level: Deluxe Suite - Deluxe Room

Upper floor: Superior Room - roof terrace

Kasbah Tamadot was seriously affected by the earthquake in September 2023. Renovation works are to last until August / September 2024. We regret that we cannot confirm any rentals until then.

Kasbah Tamadot can accommodate up to 63 guests in suites, rooms and berber tents of different categories. The impressive property is located in the foothills of the Atlas Mountains and on the outskirts of the village Asni. From Marrakesh to Asni you need one hour by car.

Kasbah Tamadot can be divided into four areas. The main building contains 15 original rooms and suites, an indoor pool, spa, a library, reflecting pool, restaurant and bar, roof terrace and main reception. Just off the main courtyard is the Asmoun Lounge. Adjacent to the main building is the heated outdoor infinity pool, hot tub, amphitheatre, sundeck, gym, spa treatment room and a collection of fruit trees. On the far side of the infinity pool from the main building is the 3-bedroom Master Suite. This miniature version of Kasbah Tamadot has a private pool and is ideal for families. Continue exploring past the Master Suite and you'll find the gardens, tennis courts, mule shed and Berber Tents. There are nine tents, five of which have private jacuzzis, and all have spacious decks and views over the valley and the mountains.

You're also invited to get to know Kasbah Tamadot's resident camels, mules and donkeys - these are housed just beyond the tennis courts.

The guests can choose between a variety of activities: open-air-cinema, tennis courts, trekking in the Atlas Mountains, mountain biking in the area with a professional guide, horse trekking, hot air ballooning, golfing or skiing in the Oukaimeden.
