Spend your holidays on your own, small paradise island! L'Ilot is a little island, set about 100 m off the east coast of Mauritius. The island with a size of 3.100 sqm only has one building: Villa Ilot Marine. It is located close to Roche Noire and connected to the main land by a small paved road. Spacious Villa Ilot Marine can directly be accessed by car. It has been built on a sandy area under Filaos-trees giving shade and is harmoniously nestled into the natural surrounding. The furnishing is modern in a contemporary style using natural materials.

DOMIZILE REISEN

The ocean is easily accessible all around the island. Directly in front the house, stairs lead down to a natural, protected pool in the Indian Ocean. From a small jetty, guests can reach the deeper water where they can swim, snorkel or dive. The small island is a paradise for crabs and winkles and the local fishermen appreciate the diversity of species around the island. Here you can directly buy your meal from the fishermen. Ali comes regularly to prepare his freshly caught fish for your cooking pot or your barbecue!

Discover the 360 degree panorama of this island and experience its changing lights, its turn of the tide, wind, waves, constantly creating a different and very special atmosphere.
