The dignified Finca Hotel Son Mas houses 18 luxury junior suites. It lies secluded on a hill surrounded by a beautiful landscape between Porto Cristo and Porto Colom. The renovation of the main building, which originated in the 17th century, was done so carefully that the basic historical elements, such as the old watchtower, the mill and the visible reception area, of the Finca were able to be preserved. Covering an area of over 200,000 sqm, Son Mas is nestled in between lovely trees such as olive, almond, orange, fig and carob. Son Mas offers an exclusive restaurant and is known for its excellent cuisine, such as Mediterranean and international dishes. More restaurants can be found in the small port towns Porto Colom and Porto Cristo. The distance to the nearest beach, Cala Barca, is 4 km.
