Six Senses Samui is set on a gently sloping headland at the most northern tip of the island of Koh Samui. The unique luxury resort is made up of 66 private villas, most with private pools, nestled within natural vegetation, and with magnificent panoramic views of the Gulf of Thailand and the surrounding islands. Located just six kilometers from Samui Airport, the 20-acre estate is a 45-minute flight south of the Thai capital, Bangkok. Six Senses Samui has the reputation of serving some of the best food on Koh Samui and uses the freshest herbs, vegetables, and organic greens from the resort's own gardens. The award-winning "Dining on the Rocks" restaurant is located on the tip of the headland and features modern innovative cuisine with 270-degree views, whilst Dining on the Hill offers regional and international cuisine. A large selection of wines from many of the world's most respected regions is featured in Wines on the Hill. Six Senses Samui offers all the treatments you would expect from a Six Senses Spa, and each one tailored to the individual. There is also Yoga, Reiki, Pilates, and more. Choose to have treatments in either air-conditioned individual spa villas or with tropical sea breezes in private salas; wherever the choice, clients will have a spectacular view across a rock-fringed bay to the Gulf of Thailand. However one gets around Samui, by foot, elephant or with wheels, a wealth of natural beauty is to be found. The island is small enough to easily drive a car around and discover new things and unique places. A sense of adventure will be rewarded with everything from shopping and restaurants to pleasant hikes, jungle drives and spectacular views. Boat trips are also available and designed to show you this most beautiful island.
