breakfast and other culinary delights. Hochleger resort has an eco-friendly and sustainable approach, using only high quality natural materials and local products.

The three TreeLofts were built of solid larch wood on stilts between the trees. They offer a new, extraordinary concept of living away from the everyday. The TreeLofts impress with their reduced and at the same time spectacular architecture with breathtaking views of the Zillertal. Each Tree Loft is of very high quality with great attention to details and has its own colour and material concept. Slanted wooden walls throughout create a cosy and individual atmosphere. Each of the TreeLofts feature a double bed made of pinewood, a bath with shower/WC, lounge chairs with panoramic view and a south facing balcony. Guests can take advantage of the mountain sauna and swimming biotope at Hochleger chalet resort.

The road up to the mountain chalets Hochleger is cleared daily during winter, still winter equipment and snow chains are mandatory.
