The exceptional Château des Anges is a jewel of Provence luxury, close to famous Luberon Regional Park, near one of the most beautiful villages in the region. In the midst of the splendid protected environment with vineyards producing its own Château label Luberon wine, the property complex is ideal for multi-generation gatherings and special events. Château des Anges offers an enchanting atmosphere and breathtaking views for your guests with its special character. Hidden in the heart of a park and its vineyard and having unrestricted views over the Luberon this castle was built between 1635 and 1707. The setting of the Château des Anges has all the charm that Provence is famous for: Gently rolling hills, the Luberon mountains as a distant backdrop, and the sunlight that nurtures olives, vineyards and fields of lavender. In front of the main castle, terraced gardens lead south past a pool to a formal garden. Part of its design originally was done by André Le Nôtre, the 17th-century landscape architect best known for his gardens at Versailles and Vaux-le-Vicomte.

The whole property has been completely and masterfully restored to preserve its authenticity with modern conveniences. The 18th century facade of the castle has a beautiful alignment of mullioned windows and dressed stone frames.

On the ground floor of the castle there is a vast entrance hall, a beautiful staircase with 17th century Gypserie, cloakroom with access to the two vaulted cellars in the basement. The large family kitchen combines rustic features with modern facilities and a fireplace. A hall entrance towards the East leads to the indoor swimming pool opening to the gardens by magnificent arches. The four bedrooms on the first floor all have a wardrobe or dressing rooms and 4 rooms even have fireplaces. One bedroom has access to terrace. There is also another central sitting room, as well as access to a large balcony area above the indoor pool. The castle has a lift with access to all the floors. A delightful 17th century vaulted chapel with carved gate dating back to 1661 is adjoining the back of the castle.

The former Farm House of the domain has been restored into a guest house and is situated on a headland behind the castle. The Farm House can be rented independently. It has a vast entrance hall with open space, large vaulted sitting room also with a fireplace. One bedroom has access to garden and one has a balcony.

The Stable House cannot be rented separately, only together with the castle.

Entrance to the property is by an impressive platane allee, passing a restored windmill. A staff team including a property manager is at your disposal throughout your stay. Staff is accommodated in different adjacent buildings on the property to guarantee absolute privacy in the chateau.
