DOMIZILE REISEN

activities included

At extra charge: dog sledding, winter ice driving, private visit to Santa Claus, boat trips, ice fishing and much more

Octola Private Wilderness Lodge is the most luxurious lodge in Finnish Lapland. In the secluded wilderness and deep forests of the Arctic Circle, Octola offers authentic luxury combined with gourmet chef, butler and wilderness guide. Total privacy, free-roaming reindeer and a variety of exciting Arctic outdoor activities right on your doorstep make Octola a very special place of relaxation and inspiration in the middle of the overwhelming nature of Lapland. Octola Private Wilderness was built with the aim to create a luxury home in the Arctic as well as an authentic experience that integrates Lapp and Sami architecture and traditions. The shape of Octola is derived from original Lappish "laavu" buildings that once served as accommodation for the nomadic people. The lodge is beautifully designed and offers every conceivable service and comfort. Octola is divided into two separate ground level house wings, one with six bedrooms, the other with four bedrooms, all very exclusively and tastefully furnished, each with en-suite bathrooms. Inbetween the two wings there is the stylish shared space featuring an elegant, country-style living/dining room with fireplace and panoramic windows overlooking the wild nature. Geothermal heating and a wood-fired sauna ensure that it stays warm even in the coldest time of the year. The lodge generally sets high value on sustainability and ecology - the lodge has a negative carbon-footprint. All meals are included at Octola Lodge. Enjoy the richness of Nordic dishes prepared by first-class gourmet chefs using local ingredients. Octola Lodge offers a wide range of activities, from snowshoeing with a wilderness guide, northern lights viewing (August-April), cross-country skiing, sledding, fatbiking and nature walks to snowmobiling. There are also opportunities to feed reindeer and foraging hikes in the summer/fall. For an additional fee you can also try ice driving, reindeer sledding, skiing, husky sledding and more. For young children, a private visit to Santa Claus is a magic experience. Discover the magic of Lapland and spend some exciting and relaxing days in Octola. [HERE](https://fine-rentals.com/adventure-family-travel-finland-lapland.html) you can find a proposal for a 5-day trip with all activities. In addition, there is also a private two bedroom [Octola Villa](https://www.fine-rentals.com/luxury-villa-finland-lapland-octola-2870.html) that can be booked for 4 adults and up to 4 children.
