## DOMIZILE REISEN

The luxury villa Sapi with its 6 bedrooms is a true masterpiece in design directly on the sea on the tranquil island of Lombok. The villa inspires with its fancy architecture - a tropical paradise at its best with spacious open pavilion with high ceilings and open side fronts reflecting the different moods of the sea, 3 pools, a children's pool, a guest house, tennis court, excellent service and a gourmet kitchen.

Villa Sapi is located on the almost deserted Sira Beach with its turquoise water and magnificent sunsets and the towering peaks of Mount Rinjani National Park in the background. It is secluded and lusciously private but by no means isolated; prestigious neighbours include the the 18-hole Sire Beach Golf Club, restaurant and bar, Tanjung market and much more are all within quick reach.

Canadian architect David Lombardi's "function before form" concept leaves Villa Sapi's guests with a sense of discovery and surprise at every turn - from the traditionally styled, grass-roofed building that houses the main kitchen to a futuristic home theatre.

Furnishings carry a signature colour theme of black, red and lime green, while the walls are adorned with flair – bamboo, water cascades and conceptual artwork.

A full team of staff is on hand at Villa Sapi to look after every guest's need with superb cuisine (meals available at extra charge) and service. A wide range of activities are available to guests of Villa Sapi, golf, snorkeling, diving, hiking to the waterfalls and mountains, cycling, day trips to the nearby Gili islands, cooking classes and much more.
