Spiti Krotiri is a lovingly decorated holiday house and it lies in walking distance to a sandy beach with beautiful water. It is part of a well tended urbanisation. From the large garden and the spacious terrace it offers nice views of the small bay and of the village of Parikia. A picturesque al fresco dining area with a massive marble table is situated in the garden, where breakfast and dinner can be enjoyed. One of the bathrooms and all the bedrooms are located in the souterrain floor. They have skylight windows and ceiling fans. Taxi boats from the nearby beach to Parikia go quite often every day in high season, so that shopping and visiting the restaurants is possible without using a car. Thus, Spiti Krotiri is a unique house to spend pleasant family holidays close to the beach.
