floor. From the verandah, three steps lead into the garden which passes directly into the beach. The vacation villas have luxuriously appointed interiors, generous living and dining spaces, private kitchens, spacious balconies and master suites with oversized ensuite bathrooms. While the villas are equipped to cater to the expectations of modern living, much of the design is based on traditional Sri Lankan homes. High vaulted ceilings, tall louvered doors and windows shading large open spaces provide wonderful ventilation and allow the cooling ocean breeze to permeate the property. The villas have their own, well-trained English-speaking staff in residence so that guests may completely relax and feel at home. Special requests will happily be responded to in every possible way, for example, babysitting can be arranged. Breakfast will be served in the villa. On request, a table may be set up outside the living spaces in order to enjoy a special, intimate dinner at extra charge. The staff is happy to arrange transport to and from the airport. Given advance notice, they will also help arrange day trips to other destinations.

For citizens of the EU, a visa is required for entry to Sri Lanka. This should be applied for in advance as "Electronic Travel Authorization" (ETA) in the online procedure at <http://www.eta.gov.lk/sivisa/>>eta.gov.lk. Please inform yourself about the entry requirements before your trip.
